

Demonstration of Proposed Features

Date	7 July 2026
Team ID	
Project Name	India's Agriculture Crop Production Analysis
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Interactive Dashboard Overview	A dynamic dashboard displaying key KPIs including Total Crop Production, Area Harvested, Productivity, Top Crops, and Year-wise Trends.	Implemented	Yes	Fully functional dashboard with real-time filters and visual cards.
2	State-wise Crop Production Analysis	Allows users to select a state and view detailed crop production data including year-wise production, area harvested, and productivity for major crops.	Implemented	Yes	Accurately retrieves and displays state-level data.
3	Crop-wise Comparison	Compare production and productivity of a selected crop across multiple states with bar charts and ranking tables.	Implemented	Yes	Correctly compares and ranks states based on productivity.
4	Year-wise Trend Analysis	Visualize year-wise trends of production, area, and productivity for any selected crop at national or state level.	Implemented	Yes	Provides clear line charts with accurate trend insights.
5	Top Crops Overview	Displays the top 5 crops by production for the selected year with a summary table and pie/donut chart.	Implemented	Yes	Highlights major crops with correct values and visuals.
6	Advanced Filters & Search	Filter data by State, Crop, Year, and Season. Includes search functionality for quick exploration.	Implemented	Yes	Filters and search work seamlessly and return precise results.
7	Data Export (Reports)	Export filtered data and charts as CSV and download summary reports for offline analysis.	Implemented	Yes	Successfully exports data and generates clean reports.
8	Responsive Design	Fully responsive UI that works across desktop, tablet, and mobile devices.	Implemented	Yes	UI adapts smoothly to all screen sizes and devices.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	 Operation Validation Banner	Displays automated confirmation banners upon successful data operations such as data upload, analysis execution, report generation, and export actions.	 Implemented	 Yes	 Data operation lifecycle tracked with automated status feedback.

Feature Implementation Summary:

 Total Features Proposed	6
 Total Features Implemented	6
 Total Features Demonstrated	6
 Overall Implementation Rate (%)	100%
